

Safety Data Sheet (SDS)

Date prepared 6-Dec-2016
Date revised 1-Apr-2022

Applicable products CHUKOH FLO™ Belt BGF Series, BGP Series, BGA Series

1. Product and company identification

| | |
|---|--|
| Product name | See the applicable products above. |
| Product code | – |
| Company name | CHUKOH CHEMICAL INDUSTRIES, LTD. |
| Address | ATT New Tower 10F, 2-11-7, Akasaka, Minato-ku, Tokyo |
| Telephone | 03-6230-4414/81-3-6230-4417 |
| Fax | 03-6230-4413/81-3-6230-4446 |
| Recommended use | For industrial use |
| Restrictions on use | For industrial use |
| Information on domestic manufacturers, etc. | See above |

2. Hazards identification

| | |
|---|---|
| GHS Classification | Not applicable |
| GHS label elements | Not applicable |
| Pictures or symbols | No information available |
| Warning statements | No information available |
| Hazard information | No information available |
| Cautionary statements | No information available |
| Other hazards not related to or addressed by the GHS classification | No information available |
| Summary of important indications and possible emergencies | No information available |
| Other | Not hazardous under normal handling. Heating fluorocarbon resin produces pyrolysis products (fumes), which may cause eye, nose, and lung irritation if inhaled. |

3. Composition/information on ingredients

Substance/Mixture Mixture

| Chemical name or generic name | Concentration or concentration ranges | Chemical formula | Reference No. in gazetted list in Japan | | CAS No. |
|-------------------------------|---------------------------------------|------------------|---|----------------------------------|------------|
| | | | Chemical Substances Control Law | Industrial Safety and Health Act | |
| Fluoro resin | 17-80% | – | – | – | – |
| Glass | 20-83% | Not identifiable | Not applicable(Mixture) | Not known | 65997-17-3 |

Ingredients contributing to GHS classification No information available

4. First-aid measures

| | |
|------------|--|
| Inhalation | If fumes from heating or burning are inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice/attention if you feel unwell. |
|------------|--|

| | |
|--|--|
| Skin contact | Wash with plenty of soap and water. If molten polymer contacts skin, cool rapidly with cold water. Do not attempt to peel polymer from skin. Seek medical advice/attention if irritation occurs. |
| Eye contact | Flush eyes cautiously with water for several minutes. Seek medical advice/attention if irritation persists. |
| Ingestion | Rinse mouth. Seek medical advice/attention if you feel unwell. |
| The most important manifestations of acute and delayed symptoms | No information available |
| Precautions necessary for the protection of persons who provide first-aid measures | No information available |
| Special precautions for physicians | No information available |
| 5. Fire-fighting measures | |
| Appropriate fire extinguishing media | Use extinguishing media appropriate for surrounding fire: Water, foam, powder, etc. |
| Fire extinguishing media that should not be used in case of fire | No information available |
| Specific fire hazards | This product hardly flammable. Fire may produce irritating, corrosive, and/or toxic gas. |
| Specific fire extinguishing methods | Move product from fire area if you can do so without risk. Fight fire from maximum distance and use unmanned hose holders or monitor nozzles. |
| Special protective equipment and precautions for firefighters | Wear self-contained breathing apparatus (SCBA). Firefighters should wear protection clothing and self-contained breathing apparatus (SCBA). |
| Cautions | When fluorocarbon resin is exposed to high temperatures, it produces harmful particulates, fumes, and gases. In case of fire, evacuate upwind as far as possible to avoid inhalation. |
| 6. Accidental release measures | |
| Personal precautions, protective equipment and emergency procedures | Wear suitable protective equipment (see Section 8, Exposure controls/personal protection) to prevent inhalation and exposure of eyes or skin. |
| Environmental precautions | Avoid discharge to rivers and environmental effects. |
| Methods and materials for containment and cleaning up | Break into small pieces. Collect if scatter. Dispose in accordance with Section 13. |
| Measures to prevent secondary accidents | No information available |
| 7. Handling and storage | |
| Handling | |
| Technical measures | Install equipment in Section 8, Exposure controls/personal protection. Wear protective equipment. |

| | |
|--|--|
| Precautions for safe handling | Do not smoke where this product is handled. Do not carry cigarettes, cigars or tobaccos and do not smoke in the workplace as decomposition gas may be inhaled by smoking if the substance contacts them. Wash hands thoroughly after handling. Ensure good ventilation/exhaustion. Avoid breathing dust/fume. Do not use at high temperatures. Do not heat. If this product may be used at high temperatures or heated, provide good ventilation and local exhaust ventilation system. |
| Avoidance of contact Hygiene measures | See Section 10, Stability and reactivity. Wash hands thoroughly after handling. |
| Storage | |
| Conditions for safe storage | Stable at normal storage conditions. Storage at or below 25°C and 60% RH is preferred. |
| Safe containers and packaging materials | No restriction for packaging materials. Use containers which will not be broken. |

8. Exposure controls/personal protection

Control concentration

Allowable concentration

Not set

Engineering measures

Install equipment in Section 8, Exposure controls/personal protection. Wear protective equipment.

Protective equipment

| | |
|--------------------------|--|
| Respiratory protection | Wear appropriate respiratory protection if ventilation is not enough. |
| Hand protection | Wear eye protection. |
| Eye protection | Wear personal protective equipment including protective clothing and protective mask if necessary. |
| Skin and body protection | Wear personal protective equipment including protective clothing and protective mask if necessary. |

9. Physical and chemical properties

Appearance

| | |
|---|------------------|
| Physical state | Solid |
| Color | Light brown |
| Odor | Odorless |
| Melting point/freezing point | Not available |
| Boiling point, initial boiling point, and boiling range | Not available |
| Flammability | Flame Retardancy |
| Lower explosion limit and upper explosion limit/flammable limit | |
| Lower | Not available |
| Upper | Not available |
| Flash point | Not available |
| Autoignition temperature | Not available |
| Decomposition temperature | Not available |
| pH | Not available |
| Viscosity | Not available |

| | | |
|--|--------------------|---|
| Solubility | | Insoluble in water. |
| Partition coefficient (n-octanol) | | Not available |
| Vapor pressure | | Not available |
| Density and/or relative density | | Not available |
| Relative gas density | | Not available |
| Particle characteristics | | Not available |
| Other data | | Not available |
| 10. Stability and reactivity | | |
| Reactivity | | Not available |
| Chemical stability | | Stable under normal storage and handling conditions. Decomposes on heating or burning, emitting toxic fumes including those of hydrogen fluoride. |
| Possibility of hazardous reactions | | Hazardous reaction or polymerization generating excessive pressure/heat will not occur. |
| Conditions to avoid | | Not available |
| Incompatible materials | | Metal powders such as aluminum and magnesium or fluorine compounds such as fluorine and chlorine trifluoride. |
| Hazardous decomposition products | | Thermal decomposition will generate large amount of hydrogen fluoride, carbonyl fluoride, etc. at high temperatures. |
| 11. Toxicological information | | |
| Acute toxicity | | |
| | Oral | Not available |
| | Dermal | Not available |
| | Inhalation (vapor) | Not available |
| | Inhalation (dust) | Not available |
| Skin corrosion/irritation | | Not available |
| Serious eye damage/eye irritation | | Not available |
| Respiratory or skin sensitization | | Not available |
| Germ cell mutagenicity | | Not available |
| Carcinogenicity | | Not available |
| Reproductive toxicity | | Not available |
| Specific target organ toxicity (single exposure) | | Not available |
| Specific target organ toxicity (repeated exposure) | | Not available |
| Swallowing hazard | | Not available |
| Others | | Thermal decomposition of fluoropolymers may generate polymer fumes, hydrogen fluoride, carbonyl fluoride, and perfluoroisobutylene. The toxicity information is as follows. |
| | Effects on humans | Inhalation of fumes from burning may produce polymer fume fever, a temporary flu-like condition with fever, chills and cough. This may last for a whole day and night. Skin absorption will not occur. There are no reports of sensitization. |

| | |
|---------------------------------|--|
| Effects of hydrogen fluoride | Inhalation of low concentrations of hydrogen fluoride can initially include symptoms of choking, coughing, and severe eye, nose, and throat irritation, fever, chills for one to two days, followed by difficulty in breathing, cyanosis, and pulmonary edema. Overexposure to hydrogen fluoride can injure the liver and kidneys. |
| Effects of carbonyl fluoride | Skin: Irritation with discomfort or rash Eye: Corrosion with corneal or conjunctival ulceration Upper respiratory passage: Irritation Lung: Temporary irritation effects with cough, discomfort, difficulty in breathing, or shortness of breath (Individuals with pre-existing diseases of the lungs may have increased susceptibility to the toxicity after excessive exposures to thermal decomposition products.) |
| Effects of perfluoroisobutylene | Even trace amounts are extremely toxic. |

12. Ecological information

Ecotoxicity

Not available

Handle with care as leakage or disposal may affect the environment.

In particular, ensure that the product does not flow directly into the ground, rivers or drains.

Persistence and degradability
ecological accumulative property
Mobility in soil
Hazardous to the ozone layer

Not available

Not available

Not available

Does not contain any substances that deplete the ozone layer listed in Annexes to the Montreal Protocol.

13. Disposal considerations

Waste from residues

Dispose in accordance with applicable laws and regulations and standards of local governments.
Entrust the disposal to a licensed waste disposal contractor or a local public body who conducts the disposal.

When entrusting the disposal to a disposal contractor, notify the danger and toxicity thoroughly to the contractor.

Contaminated container and packaging

Dispose in accordance with applicable laws and regulations and standards of local governments.

14. Transport information

UN number

Not dangerous goods

Item (UN transport name)

Not dangerous goods

UN Classification

Not dangerous goods

Container grade

Not dangerous goods

marine pollutant

Not dangerous goods

Liquid substances transported
in bulk according to MARPOL
73/78 Annex II and IBC Code

Not dangerous goods

| | |
|---|--|
| Special safety measures for transportation or means of transportation | Confirm that there is no damage, corrosion, or leakage of the containers before transportation. Avoid direct sunlight at transportation. Load containers not to cause damage, corrosion or leakage and thoroughly prevent load collapse. Do not stack heavy objects. |
|---|--|

| | |
|--|----------------|
| Regulatory information on domestic regulations, if any | Not applicable |
|--|----------------|

15. Regulatory information

Applicable laws and regulations and information on requirements imposed by such laws and regulations

| | |
|--|----------------|
| Pollutant Release and Transfer Register (PRTR) | Not applicable |
|--|----------------|

| | |
|----------------------------------|----------------|
| Industrial Safety and Health Law | Not applicable |
|----------------------------------|----------------|

| | |
|--|----------------|
| Poisonous and Deleterious Substances Control Act | Not applicable |
|--|----------------|

| | |
|--|----------------|
| Other applicable laws and regulations and information on requirements imposed by | Not applicable |
|--|----------------|

16. Other information

Hazard statements herein are made based on the assumption of industrial use and general handling. Handle with care at the actual use by referring to the hazard statements herein.

| | |
|---------------------|---|
| Restrictions on use | This product is not intended for medical use. Do not use this product for implant or in a way that will contact with the body fluid or tissue. Consult with us in advance if it is expected to use the product in medical field. |
|---------------------|---|

| | |
|------------|---|
| References | SDS made by raw material manufacturers. |
|------------|---|

The information herein may be revised if any new findings are obtained.

Values of concentration and physical and chemical properties are not guaranteed values.

Hazards identification was prepared based on the documents, information and data available at the time of preparation, but it does not mean that all documents, information and data are covered.
