
**Notification regarding the reaching of a license agreement to use
the Teflon™ trademark with The Chemours Company FC, LLC**

CHUKOH CHEMICAL INDUSTRIES, LTD. has reached a license agreement to use the Teflon™ trademark with The Chemours Company FC, LLC (hereafter, "The Chemours"), a fluoroplastics manufacturer and retailer with headquarter in Wilmington, Delaware State, United States of America. The content of this license agreement, which concerns fluoroplastic adhesive tape, is as follows.

<Aims of this license agreement to use the Teflon™ trademark>

Fluoroplastic products are widely known as Teflon™, but this is the name of a product which is manufactured and sold by The Chemours.

While our company has been manufacturing and selling a range of different fluoroplastic products for many years, the majority of general consumers may not be familiar with the name "fluoroplastics."

In light of this, it was our judgment that use of the Teflon™ trademark for our fluoroplastic adhesive tape would help more of our customers understand our products, which eventually led to our reaching of a license agreement to use the Teflon™ trademark with The Chemours. The reaching of this license agreement to use the Teflon™ trademark with The Chemours required us to demonstrate the quality of our products and our outstanding record of achievements over the years. In reaching the license agreement for fluoroplastic adhesive tape, The Chemours gave high appraisal to our track record extending back over half a decade.

As part of this license agreement, the packaging for our fluoroplastic adhesive tape products will indicate the fact that they are authorized Teflon™ products.

We look forward to your ongoing custom in the future.

* At the headquarters of The Chemours

(Left) Ms. Jesal, Director of Fluoropolymers, Chemours Global Business

(Right) Mr. Shono, President of CHUKOH CHEMICAL INDUSTRIES, LTD.
