

Cookies Policy

1. Handling of Cookies

Cookies (hereinafter referred to as “cookies”) are functions that store information about your visits to websites and other sites on your computer, tablet PC, or cell phone in the device you are using.

By using cookies, it is possible to obtain information such as the number of times your device has visited a website and the pages you have visited.

Our website automatically collects information such as Internet domain names, IP addresses, and the environment in which this website is viewed.

However, unless the user enters personal information, the collected information cannot be used to identify or distinguish the individual and remains anonymous. You can also set your browser to refuse cookies.

Please refer to “4. Disabling Cookies” below for details on disabling cookies.

2. Acquisition and Purpose of Use of Cookie Information

2.1 Acquisition of cookie information

“Cookies” are used for some of the services on the Company’s website for the purpose of providing better services, such as statistical processing of access information, and are not intended to be used for any other purpose.

Cookies do not violate the privacy of users or their usage environment.

Cookies do not store personally identifiable information in any case.

2.2 Access logs

Our website records information about visitors in the form of access logs, but the access logs themselves do not contain any personally identifiable information.

We collect information on our website for statistical analysis of usage and to improve the usability of the website.

Google Analytics uses cookies to collect user information, but does not collect information that identifies individual users.

The information collected is anonymous and does not correlate access information with the visitor’s personal information.

The results of the analysis are used for the purpose of improving the quality of this site and creating better content.

Information collected by Google Analytics is managed in accordance with Google’s privacy policy. Please see below for more details.

Please note that we will not be liable for any damages resulting from the use of Google Analytics or Google Analytics Opt-Out Add-on.

- Google Analytics Terms of Use

- Google Privacy Policy

2.3 Use of Cookie Information

When you visit our website after providing us with personal information via a contact form on our website, we may use cookies, web beacons, or similar technologies to automatically collect information about your device and use of our website.

This information is used solely to analyze overall trends, improve our website, and send you useful product information via e-mail or other means.

3. Site Security and Protection of Personal Information at Linked Websites

When you register your personal information on our website, we use data encryption technology called SSL (Secure Sockets Layer) as a security measure on the network.

This is a common technology used as a security measure for communications on websites, and prevents interception by encrypting the entire transmission of input data when it is sent over the Internet.

In addition, the Company's website may contain links to websites of other companies in the Company and its group. We are not responsible for the protection of personal information or the content of websites outside of our company and our group companies.

4. Disabling Cookies

Customers may disable the cookie function by changing their browser settings.

If you disable cookies, you can still use our website, but you may not be able to use many of its features. Please refer to the following URLs for information on how to change cookie settings for each of the major browsers.
